ABOUT US

what we do

LINUX TRAINING

GNU/Linux is the most widely used platform in today's datacenters and IT world. We provide high quality generic & Red Hat Enterprise Linux training.

LINUX CERTIFICATION

So far, contributed over **15,600** Red Hat Certified Engineers to IT industry. Conducting maximum number of Red Hat certifications in North India.

INDUSTRY FEEDBACK

We conduct regular seminars, workshops and presentations on current industry topics & trends. People skills. Preparing students for real world.

PLACEMENT

With a dedicated placement division & strategic tip ups with companies. We are able to place above **70%** of our certified students.

Puppet TRAINING

Your first step in highly paid DevOps world. Our Puppet fundamentals training will train you how to use puppet infrastructure to manage Linux servers. You will learn how to use DSL language to create puppet modules and manifests.

Duration: 26 hours
